

RS65R5691B4, 3 Door Plumbed water & ice dispenser, 602 L, Gentle Black

- SpaceMax™ Technology
- All-around Cooling
- Digital Inverter

More fresh space inside, More seamless style outside

SpaceMax™ Technology

Store more food with a very spacious 617 liter* interior. Its unique SpaceMax™ technology enables the walls to be much thinner as it uses a minimal amount of high-efficiency insulation. So it creates more storage space without increasing the external dimensions or compromising energy efficiency.

Flexibility switch between 4 cooling modes

Store different food and drinks at the optimal temperatures, so they stay fresh and tasty for longer. The FlexZone is an independently controlled compartment. It's 4 pre-set settings are ideal for preserving meats, cooling beverages, keeping fruit & vegetables fresh, or just storing more food.

* Available on the 3 door model only.

Always fresh food, wherever it is

All-around Cooling

Make sure that all your food is properly cooled – wherever it is in the fridge. An All-around Cooling system continually checks the temperature and blows out cold air. It cools the fridge evenly from corner to corner, so every item of food stays fresher for longer.

Last longer with up to 50% energy saving

Digital Inverter

Samsung Digital Inverter Compressor lasts longer while saving energy up to 50%. Unlike conventional compressors, it automatically adjusts its speed in response to cooling demand, reducing wear and tear. It is also certified for 21 year lifespan durability* and guaranteed by a 10-year warranty**

* Awarded a 21 year durability certification by the Association for Electrical, Electronic & Information Technologies in Germany (Verband Deutscher Elektrotechniker – VDE).

**** 10 year warranty is limited to the compressor only.**

Minimize cool air loss by 55%*

3 Door SBS

Store and organize your food more efficiently for the ultimate convenience. The 3-door, side-by-side (SBS) refrigerator has two fridges and one freezer. With its upper and lower fridge, it minimizes cool air loss by 55%, so you can save energy. And everything can be kept well organized.

* Tested by intertek to Samsung internal test method.

* The verification of reduction of cool air loss achieved through the energy consumption test, when opening the upper/lower fridge door of RS65R56*1**, RS63R55*1** compared to fridge door of RS50N35*3**, RS50N36*3**.

Perfectly harmonious and stylish design

Sleek & Seamless Design

Give your home a stylishly integrated and modern look. Its sleek and seamless counter-depth design will fit perfectly with the dimensions of your existing appliances and cabinetry to create a harmonious kitchen interior. It also has beautiful flat doors with recessed handles that don't protrude.

Holds in the cold for lasting freshness

Metal Cooling

Keep your food fresh, even if you frequently open and close the door. The Metal Cooling duct in the rear wall helps to maintain the optimal internal temperature. It retains the cold and prevents the loss of cool air when the door is open. And it quickly restores any heat loss when it's shut again.

Fast cooling and freezing on demand

Power Cool / Power Freeze

Enjoy a rapid cooling performance. At the touch of a button, Power Cool blows intensely cold air into the fridge to quickly cool your groceries or favorite drinks. And Power Freeze delivers a fast blast of cold air into the freezer. It's great for freezing or firming up frozen food and making ice.

Easily find and reach food at the back

EZ Slide Shelf

Organize, put in and take out food more easily, so there's no 'dead space', with the EZ Slide shelf. It is built on rolling hinges and simply slides in and out. So you can easily find and reach things at the back and in the corners without having to navigate through an obstacle course of items.

More ice, more freezer storage space

Slim Indoor IceMaker

Create more space to store more food, but still have enough ice with a Slim In-door Ice Maker*. As it's built into the door, it gives you extra storage by freeing up freezer shelf space, but can make and store plenty of ice. And its transparent plastic cover lets you easily see how much is left.

*** Available on 3 door non-dispenser model only.**

Neatly store more of your favorite wine

Wine Rack

Organize and neatly store more wine. A Wine Rack is designed to safely store bottles of wine, so they don't roll around and are easy to reach. It can be installed in either the upper or lower fridge compartments. So you can easily enjoy a glass of deliciously chilled wine whenever you like.

Odor eliminator maintains natural flavour

Deodorizing Filter

Keep the inside of the refrigerator deodorized and preserve the original flavor and aroma of food for longer. The built-in natural fiber Deodorizing Filter eliminates strong smells as the air is continually passed through activated carbon filters. So here's no need for other odor fighting solutions.

Easily store more vegetables & fruit

Vege Box

A large capacity Vege Box provides a convenient space to store a large amount of fresh vegetables and fruit. And because it's so big it's much easier to find everything, as they're all in one place and easy to get to, so you can enjoy them more often without taking up valuable kitchen space.

Specifications

- Net Total (liter)602
- Net for Freezer (liter)202
- Net for Fridge (liter)400

Physical specification

- Dimensions : w-912 x h-1780 x d-716mm
- Packaging dimensions : w-974 x h-1909 x d-776mm
- Weight : 112kg
- Packaging weight : 119kg

Cooling Feature

- Power Cool Function
- Power Freeze Function
- Cooling Type - Mono Cooling

Refrigerator Feature

- 2 Shelves
- 1 Slide out shelf
- Drawer : Flex Zone (0/1/3°C, Fridge)
- Wine rack
- 5 Door pockets
- Egg container
- LED interior light
- 2 Fruit & vegetable drawers

Freezer Feature

- Door alarm
- Digital Inverter Compressor

Performance

- Energy Efficiency Class : A+
- Noise Level : 40 dBA
- Energy Consumption : 480 kWh/year
- Vacation mode
